Safety Precautions

The lightning flash with an arrowhead symbol within an equilateral triangle is intended to alert the user of the presence of uninsulated "dangerous voltage" within the product's enclosure that may be of sufficient magnitude to constitute a risk of electric shock to persons.

Warning: Risk of electric shock, do not open the battery cover, the back battery cover for your safety.

The exclamation point within an equilateral triangle is intended to alert the user of the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference,
- (2) This device must accept any interference received.

Including interference that may cause undesired operation.

Warning: Do not expose this appliance to rain or moisture, due to the high risk of fire or electric shock. And do not open the cabinet for dangerous high voltages are present inside the enclosure. Only qualified service personnel should attempt this.

Caution: During playback, the disc spins at high speed, so do not lift or move the player, doing so may damage the disc.

CAUTION: This Digital Video Disc Player employs a Laser System. There are no user serviceable parts therefore refer all servicing to qualified personnel. Visible laser radiation when open and interlocks defeated. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

DO NOT STARE INTO BEAM.

Introduction

This new portable DVD player is designed for enjoyment of all forms of disc media. And it has USB and SD/MMC port automatic identification, compatible with various formats of AV files. It's slim shape allows it to be easily carried.

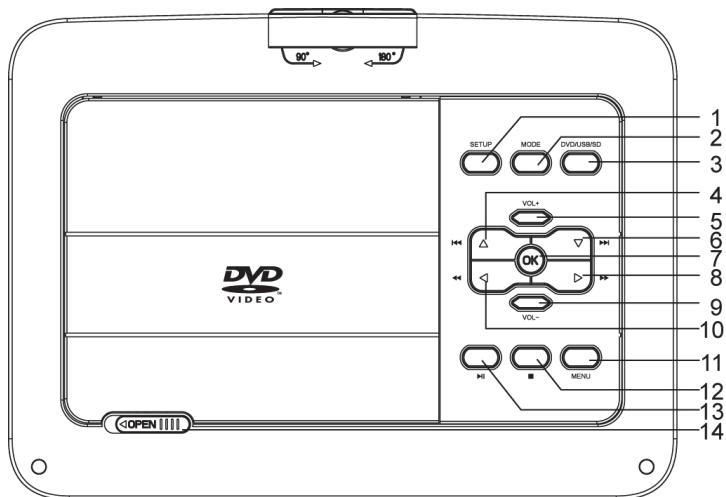

This player incorporates the latest digital audio/video (AV) technologies to give you the ultimate in listening and viewing pleasure.

This new player also supports CD, and JPEG. This player also has several unique features, large LCD screen, multi-angle and multi-language, Parental Control (to prevent children from viewing inappropriate content), and Kodak Picture CD compatibility.

Remote Control

The remote control

Operating with the remote control

1. The remote control must point at the remote sensor, in order for the DVD player to function correctly.
2. The remote works best at a distance less than 3 meters and at an angle of up to $\pm 30^\circ$ toward the front of the unit.
3. Obstacles should not remain in between the remote control and the remote sensor on the main unit.

Quick Starting Guide

1. Connecting to an External Power Source

Connect the power adapter (supplied with the player) to the side input plug and to a wall outlet. Do not use any other device otherwise specified by your dealer.

2. Open the screen panel.

The screen panel of the portable DVD opens to a maximum 180° . And it can rotate 270° .

3. Push the open button on the left to open the disc cover.

4. Insert a DVD disc with label side facing upward.

Align the center of the DVD disc with the center of the disc guide. Press gently down on the

DVD to snap the disc into place, and then close the disc cover.

5. Slide the power switch on the right side of the unit to power it on.

6. Press the OK or PLAY/PAUSE button on the unit to start playback.

In most cases, when you leave by the PLAY/PAUSE button, continue to be used by PLAY/PAUSE button.

The DVD player will immediately start rendering the DVD program.

When you want to stop, press the STOP button, it will return to the power-on logo.

The player can be recharged while playback.

USB drive & SD/MMC card playback

- Insert a USB drive into the USB port. Press DVD/USB/SD on the unit or DVD/USB/SD on the remote to play the readable files in it.
- Insert a SD/MMC Card into the SD/MMC Card port. Press DVD/USB/SD on the unit or DVD/USB/SD on the remote to play the readable files in it.

NOTE: If it has not any U drive or memory card being inserted in the player, it will return to DVD mode.

Connecting the Earphone

Connecting earphone

1. Connect the earphone. Earphone with a 3.5 mm stereo plug can be connected.
2. Adjust the volume by pressing the VOL+/VOL- buttons on the remote control.

The right side of the portable

Avoid listening to sound at levels which may be harmful to your ears.

Connecting To Optional Equipment

Enjoy Dolby life.

Enjoy the dynamic realistic sound of Dolby by connecting an amplifier and speaker system.

 Adjust the volume of your receiver to a comfortable listening level to avoid any speaker damage.

When connecting and disconnecting the DVD video player, turn off the amplifier to avoid any speaker damage.
