Installing / Removing the Base Stand

⚠️ The LED display is very fragile, and must be protected at all times when installing and removing the base stand. Be sure that no hard or sharp object, or anything that could scratch or damage the LED display, comes into contact with it. DO NOT exert pressure on the front of the TV at any time because the screen could crack.

1. Disconnect all cables connected to the TV.

2. Lay the TV down on a flat surface with the back side facing up. Please make sure to place a soft cushioned material (such as a pillow or thick piece of foam) beneath the screen.

3. To install the base stand first make sure you position the front of the base stand facing towards the front of the TV and then use the 3 supplied screws to fix the base stand to the TV.

⚠️ The screw holes will only align if the front of the base stand is facing towards the front of the TV.

4. To remove the stand assembly, lay the TV down on a flat surface with the back side facing up. Please make sure to place a soft cushioned material (such as a pillow or thick piece of foam) beneath the screen. Remove the 3 screws that secure the stand base to the TV. Remove the stand base by sliding it out.

⚠️ Remove the stand base before wall mounting the TV.

Keep all the screws in a safe place, should you want to attach the stand base at a later date.

This unit is VESA-Compliant and designed to be wall mounted with a VESA-Compliant 100mm x 100mm mounting kit. Mount this unit according to the instructions of the wall bracket (not supplied).

Installing Batteries in the Remote Control

1. Press and lift the back cover to open the battery compartment of the remote control.

2. Insert two 1.5V AAA size batteries. Make sure to match the (+) and (-) ends of the batteries with the (+) and (-) ends indicated in the battery compartment.

3. Close the battery compartment cover.

Handling the Batteries
- Improper or incorrect use of batteries may cause corrosion or battery leakage, which could cause fire, personal injury or damage to property.
- Only use the battery type indicated in this manual.
- When the batteries are exhausted, the remote will not function. Replace both batteries at the same time with new ones.
- Do not install new batteries with used ones and do not mix different types of batteries.
- Do not dispose of used batteries as domestic waste. Dispose of them in accordance with local regulations.

Handling the Remote Control
- Take care of your fingernails when you press and hold the battery release tab.
- Do not drop or cause impact to the remote control.
- Do not spill water or any liquid on the remote control.
- Do not place the remote control on a wet object.
- Do not place the remote control under direct sunlight or near sources of excessive heat.
- Remove the battery from the remote control when not in use for a long period of time, as it could cause corrosion or battery leakage and may result in physical injury and/or property damage including fire.

Remote Control Operation Range

Point the remote control at the TV no more than 5 metres from the remote control sensor on the TV and within 60° in front of the TV. The operating distance may vary depending on the brightness of the room.
Making Video and Audio Connections

Not all AV devices have the ability to connect to a TV, please refer to the owner’s manual of your AV device for compatibility and connection procedures.

When connecting any external AV device, do not connect the mains cable to the mains socket until all other connections are complete.

Connecting an AV Device with an HDMI Cable

- This TV can accept High-Definition Multimedia Interface (HDMI) and supports HDCP (High-Bandwidth Digital Content Protection) Protocol.
- The TV has a total of HDMI input sockets, please make sure the correct input source is selected corresponding to your connected HDMI input socket.
- When you connect to the output of an HD ready player (blu-ray disc player, game console, set-top box or computer) switch to the HDMI function and the TV will automatically detect the resolution used by the HDMI source.
- To get the best picture quality, adjust the blu-ray disc player, game console or set-top box output resolution up to 1920 x 1080p.

1. Use an HDMI cable to connect the TV’s HDMI input socket to the external AV device’s HDMI output socket.
2. Plug the connected devices into the mains socket.
3. Press the "" button on the TV or the "" button on the remote control to turn on your TV.
4. Press the SOURCE button on the TV or the SOURCE button on the remote control to display the Source List. Use the ▲▼ buttons to select HDMI and then press the OK button to confirm.

Although this TV is able to connect to an HDMI device, it is possible that some devices may not operate correctly.
Connecting a Computer with a VGA Cable

1. Use a VGA cable to connect the TV’s PC input socket to a computer’s VGA output socket. Use an audio cable to connect the TV’s PC AUDIO input socket to the computer’s audio output socket.

2. Plug the connected devices into the mains socket

3. Press the button on the TV or the button on the remote control

4. Press the SOURCE button on the TV or the SOURCE button on the remote control to display the Source List. Use the ▲▼ buttons to select PC and then press the OK button to confirm.

- The best resolution is 1920 x 1080.
- If your computer is set to shut down after a few minutes of idle mode, the TV will also switch to standby due to no signal being received, this is to save energy. Press the button of the TV when viewed from the front or the button on the remote control to restart the TV.

Connecting an AV Device with a Component (YPbPr) Cable

1. Use a component cable to connect the TV’s Mini YPbPr input sockets to an external AV device’s component output sockets.

2. Use an AV cable to connect the TV’s Mini AV input sockets to the external AV device’s component audio output sockets. (Audio Left = white, and Audio Right = red)

<table>
<thead>
<tr>
<th>Component port on the TV</th>
<th>Mini YPbPr</th>
</tr>
</thead>
<tbody>
<tr>
<td>Video output ports on DVD player</td>
<td>Y Pb Pr</td>
</tr>
<tr>
<td></td>
<td>YCb Cr</td>
</tr>
</tbody>
</table>

3. Plug the connected devices into the mains socket

4. Press the button on the TV or the button on the remote control

5. Press the SOURCE button on the TV or the SOURCE button on the remote control to display the Source List. Use the ▲▼ buttons to select YPbPr and then Press the OK button to confirm.
Connecting an AV Device with a SCART Cable

1. Use a SCART cable to connect the TV’s SCART input socket to an external AV device’s SCART output socket.
2. Plug the connected devices into the mains socket
3. Press the  button on the TV or the  button on the remote control
4. The TV will change the input source to SCART automatically once the AV device is switched on.

Connecting an AV Device with Composite Cable

1. Use an AV cable to connect the TV’s Mini AV input sockets to an external AV device’s composite audio/video sockets. (Video = yellow, Audio Left = white, and Audio Right = red)
2. Plug the connected devices into the mains socket
3. Press the STANDBY button on the TV or the  button on the remote control
4. Press the SOURCE button on the TV or the SOURCE button on the remote control to display the Source List. Use the ▲▼ buttons to select AV and then press the OK button to confirm.
Connecting a Digital Audio Receiver

For better sound quality, you may want to play the audio through your multi-channel audio receiver.

1. Use an audio cable to connect the TV’s Digital Audio out socket to an external audio receiver’s audio coaxial input socket.

2. Plug the connected devices into the mains socket.

3. Press the button on the TV or the button on the remote control.

4. Press the SOURCE button on the TV or the SOURCE button on the remote control to display the Source List. Use the buttons to select any desired input source and then press the OK button to confirm.

⚠️ The TV’s volume control will have no effect. You may control the audio level via the Audio Receiver.

Connecting Headphones

Connect your headphones to the TV’s Headphone out socket.

Before putting on headphones, turn the volume down then put the headphones on and slowly increase the volume until you reach a comfortable listening level.

⚠️ Long-term exposure to loud music may cause hearing damage. It is best to avoid extreme volume when using earphones, especially for extended periods.
Turning the TV on for the First Time

1. Connect one end of the RF coaxial cable to the aerial socket on the wall and the other end of the cable to the Aerial socket at the rear bottom of your TV.

   ![RF coaxial cable and Aerial socket](image)

   **Warning:** Do not connect the TV to the mains supply until you have completed all the connections.

2. Connect the mains cable to the mains socket after you have completed all the connections.

3. At this stage, the TV switches to standby mode.
   The red LED indicator will illuminate on the front panel of the TV.

4. In standby mode, press the **button** on the TV or the **button** on the remote control to turn the TV on. The LED indicator will change from red to green.

   ![Mains power and LED indicator](image)

   **Warning:** The **button** is located on the top of the TV.

   - Always disconnect the TV from the mains socket when not in use for a long period of time.
   - The **button** on the top of the TV or the **button** on the remote control is only used for switching the TV into standby. It does not disconnect the TV from the mains power. To completely disconnect the mains power, please remove the mains cable from the mains socket.

5. If this is the first time you are turning on the TV and there are no programs in the TV memory, the **Quick Start** menu will appear on the screen. There are 4 setups as follow:

   **Setup 1:** Select your language.
   ![Quick Start menu] - 1 - language: English, Français, Italiano, Español, Nederlands

   **Setup 2:** Select your Country.
   ![Quick Start menu] - 2 - Country: UK, France, Italy, Spain, Netherlands

   **Setup 3:** Select your Auto Power off preference.
   ![Quick Start menu] - 3 - Auto Power Off: Never, 1 Hour, 2 Hours, 4 Hours

   ![Quick Start menu] - 4 - TV Connection: Freeview, ATV, Cable
6. Ensure your aerial, cable or dish is plugged in to the TV and then press OK.

The TV will start to install the service you have selected. This could take some time depending on your selected service. You can tune an additional service at any time by pressing the Quick Start button.

Selecting the Input Source

1. Press the Source button on the TV or the Source button on the remote control to display the Input source list.

2. Press the ▲▼ buttons to select the input source that you want: DTV, ATV, AV, SCART, YPBP, HDMI, PC, Media.

3. Press the OK button to confirm your selection. If you do not press the OK button to confirm, the TV will automatically confirm the selected input source within 4 seconds.

In DTV mode, press the Radio button to switch to TV / digital radio channels directly.

Channel Selection

- Press the CH+ /- buttons on the TV or on the remote control repeatedly or the 0-9 buttons on the remote control to select the channel.

Alternative

Press the OK button to enter the Channel List. Then use the ▲▼ buttons to highlight and select the channel. Press the OK button to view the selected channel.

- If a blocked channel is selected, the password screen will be displayed. Press the 0-9 buttons to enter the password, the channel will then be unlocked (refer to page 22 for details on LOCK).

- Press the ▼ button to return to the previously viewed channel.

Display Channel Information

- Press the Info button to view the current information.

Volume Adjustment

- Press the VOL+- button on the TV or on the remote control to adjust the volume.

- If you wish to switch the sound off, press the Mute button. Press the Mute button again or the VOL+ button to resume audio listening.
Picture Setting

Allows you to set your preferred picture mode.

1. Press the **Menu** button and then press the ▲▼ buttons to select the **Picture** menu.

2. Press the **OK** or ► buttons and then press the ▲▼ buttons to select the following picture options and then press the **OK** button.

---

**Picture Mode**: Press the ▲▼ buttons to cycle among picture mode: Dynamic / Standard / Mild / User and then press the **OK** button to confirm.

Alternative
You may press the **Picture** button once and then press the◄► buttons to select the picture mode directly.

---

**Brightness**: Press the◄► buttons to increase or decreases the amount of white in the picture. (for User mode)

---

**Contrast**: Press the◄► buttons to adjust the difference between light and dark levels in the picture. (for User mode)

---

**Sharpness**: Press the◄► buttons to adjust the level of crispness in the edges between light and dark areas of the picture. (for User mode)

---

**Colour**: Press the◄► buttons to control the colour intensity. (for User mode)

---

**Tint (For NTSC format)**: Press the◄► buttons to adjust the balance between red and green levels. (Tint is only available for NTSC signal input via the SCART or AV IN)

---

**Colour Temperature**: Press the ▲▼ buttons to cycle among colour temperature: Standard / Cool / Warm and then press the **OK** button to confirm.

Adjusts the colour components independently to achieve a warm or cool.

• **Standard**
• **Cool**: Increases blue tint
• **Warm**: Increases red tint

---

**Aspect Ratio**: Press the ▲▼ buttons to cycle among aspect ratio: Auto / 4:3 / 16:9
Full / Zoom1 / Zoom2 / Cinema / Just scan and then press the **OK** button to confirm.

Alternative
You may press the **Picture** button twice and then press the◄► buttons to select the aspect ratio directly.

**Mono sound selection**

If the stereo signal is weak in stereo reception, you can switch to mono by pressing the **Sound** button twice and then press the ▶ buttons to select Mono / Nicam Stereo. In mono reception, the clarity of sound is improved. To switch back to stereo, press the **Sound** button twice and then press the ▶ buttons to select Mono / Nicam Stereo again.

**Dual Sound selection**

When a bilingual programme is received, you can switch among DUAL I, DUAL II and DUAL I+II.

**Speaker Sound Output Selection (DTV Mode)**

While watching a DTV programme, you can press the **Sound** button to display the audio language list (only applicable when the TV programme has this feature).

Press the ▲▼ buttons to select an audio language or audio format if available and then press the ▶ buttons to select sound track between Left, Right and Stereo. Press the **OK** button to confirm and exit.
Channel Setting (TV, DTV or Radio Mode)

Allows you to set up a variety of channel options.

1. Press the **Menu** button and then press the **▲▼** buttons to select the **Channel** menu.

2. Press the **OK** or **▲▼** buttons and then press the **▲▼** buttons to select the following sound options and then press the **OK** button.

---

Channel Management

To manage (Delete / Rename / Lock / Skip) all channels.

1. Press the **▲▼** buttons to Channel Management then press the **OK** button to confirm.

2. A channel management screen will pop up, press the **▲▼** buttons to select the channel you want to edit.

   a. **Delete**
      Press the **RED** button to delete the selected channel.

   b. **Lock**
      Press the **GREEN** button to lock your selected channel.

   c. **Skip**
      Press the **YELLOW** button to select the channels that you want to skip when you are selecting channels. Press the **YELLOW** button again to undo it.

   d. **Move** (this function for ATV mode only)
      Press the **BLUE** button and then press the **▲▼** buttons to move to the selected position. Press the **BLUE** button to confirm.

3. Press the **Menu** button to return back to the main menu.

4. Press the **Exit** button to exit the menu.

---

Favorite Management

To manage (Add / Delete) favorite channels.

1. Press the **▲▼** buttons to favorite Management then press the **OK** button to confirm.

2. A channel management screen will pop up.

3. Press the **▲▼** buttons to select the channels to be added to your favorite lists. Press the **RED** button to add to FAV list 1. **GREEN** button FAV list 2. **YELLOW** button FAV list 3 or **BLUE** button for FAV list 4.

4. Press the **Menu** button to return back to the main menu.

5. Press the **Exit** button to exit the menu.
Channel Setting (TV, DTV or Radio Mode)

Country

Press the ▲▼ buttons to select the country and then press the OK button to confirm.

Auto Search

To select auto search mode (All / Digital / Analogue).

1. Press the ▲▼ buttons to Auto Search then press the OK button to confirm.

2. Select Auto Search item to enter auto search user operation interface as following.

   **All Mode:** Select All to scan all available DTV and ATV channels and store them. To skip the ATV search press the Menu button. To exit the Tuning menu press Exit.

   **DTV Mode:** Select DTV to scan all available DTV (Freeview/Cable) channels and store them.

   **ATV Mode:** Select ATV to scan all available Analogue Channels and store them. To exit the tuning menu press Exit.

3. Press the Menu button to return back to the main menu.

4. Press the Exit button to exit the menu.
Channel Setting (TV, DTV or Radio Mode)

**DTV Manual Search**

How to search Digital channels manually.

1. Select **DTV Manual Search**, press the OK button to confirm.

2. Select a channel number by pressing the ▶ button or by using the number buttons on the remote control. The Strength and Quality of the signal indication bars are below.

3. Select **Start** to begin the search.

4. To exit the tuning menu press **Exit**.

**ATV Manual Search**

To search analogue channel by entering parameters manually.

1. Press the ▲▼ buttons to **ATV Manual Search** then press the OK button to confirm.

2. Select ATV manual search item to enter air channel manual search in ATV source and the user operation interface as following.

   - **Current Channe** Displays the current channel number.
   - **Frequency** Select AFC On to lock the desired frequency.
   - **Search** Press the ◄ ► buttons to start the manual tuning.
   - **Fine-Tune** Press the ◄ ► buttons to make manual fine tuning adjustments.
   - **Color System** Selects the color system: Auto / SECAM / PAL.
   - **Sound System** Selects the sound system: BG / DK / I .

3. Press the **Menu** button to return back to the main menu.

4. Press the **Exit** button to exit the menu.
**Feature Setting**

Allows you to set up a variety of feature options.

1. Press the **Menu** button and then press the ▲▼ buttons to select the **Feature** menu.

2. Press the **OK** or ▶ buttons and then press the ▲▼ buttons to select the following feature options and then press the **OK** button.

**Lock**

1. Press the ▲▼ buttons to **Lock** then press the **OK** button to confirm.

2. Use the 0-9 buttons to input a 4-digit password to enter the **LOCK** menu and then press the **OK** button to turn the Lock System On.

   - The default password is "0000".
   - If you change the password, be sure to remember the new password! If you forget the new password, press the master password "8899".

**Lock Channel:**

- ON: Turns on the Lock options. (This option must be set to ON for the channel management Lock option to function)
- OFF: Turn off the LOCK options. (All functions of the TV will be available)

**Parental Guidance:**

- Off: turn off Parental Lock
- 4-18: turn on Parental Lock and set the age level that are permitted to watch the program.

**Change Pin Code:**

- Press the **OK** or ▶ buttons to enter the pin code changing page.

3. Press the **Menu** button to return back to the main menu.
4. Press the **Exit** button to exit the menu.

**Language**

System language setting, includes OSD Language, Preferred Subtitle, Preferred Audio, Digital Teletext Language, Anglog Teletext Language.

1. Press the ▲▼ buttons to **Language** then press the **OK** button to confirm.

**OSD Language**

- Press the ▶ buttons to select the menu language.

**Preferred Subtitle**

- Press the ▶ buttons to select the Preferred Subtitle.

**Preferred Audio**

- Press the ▶ buttons to select the Preferred Audio.

**DTV Teletext Language**

- Press the ▶ buttons to select the DTV Teletext Language.

**ATV Teletext Language**

- Press the ▶ buttons to select the ATV Teletext Language.

3. Press the **Menu** button to return back to the main menu.
4. Press the **Exit** button to exit the menu.
Feature Setting

Clock
Allows you to adjust timer zone, sleep timer, auto standby, OSD timer and summer time.

1. Press the ▲▼ buttons to Clock then press the OK button to confirm.

<table>
<thead>
<tr>
<th>Date</th>
<th>Press the OK buttons to set date.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Time</td>
<td>Press the OK buttons to set time.</td>
</tr>
<tr>
<td></td>
<td>(The Date and Time option are not available in UK. The Time and Date are automatically set by the Digital TV signal.)</td>
</tr>
</tbody>
</table>

Time Zone
When you select a Time Zone city, the TV time is set by the time offset information based on Time Zone and GMT (Greenwich Mean Time) which is received with the broadcast signal and the time is set automatically by a digital signal.

Press the ◀▲▼▶ buttons to select the desired time zone city and then press the OK button to confirm. (DTV mode)

DST
(daylight saving time) [On, Off] if it's On, it'll be an hour earlier than the GMT. If Time Zone is set to Auto, it's not available.

Sleep Timer
The sleep timer automatically switches the TV to standby after the preset time has elapsed. The clock will be set automatically when receiving a digital signal. Time must be set before using Sleep Timer function.

Press the ▲▼ buttons to select a period of time after which the TV automatically switches to standby mode: OFF / 10 / 20 / ... / 180 / 240 mins and then press the OK button to confirm. The timer begins to count down from the number of minutes selected.

⚠️ If you turn the TV off after setting the sleep timer, the sleep timer setting will be erased.

Auto Standby
The unit will automatically switch to standby mode 1, 2 or 4 hours after the last time the remote control was used. A reminder screen will pop up and count down before the unit switches to standby mode. If you want to operate the TV for a long period of time, turn off the auto standby function by selecting Never.

Hearing Impaired
Allows you to show more information in subtitles for the hearing-impaired in some programmes (for DTV channels only if available).

1. Press the ▲▼ buttons to select Hearing Impaired and then press the OK button to select On / Off and return to the previous menu.

2. Press the Menu button to return to the previous menu. Press the Exit button to exit the menu.
Feature Setting

CI (Common Interface) (DTV Mode)
The common interface allows the use of a Common Access Module to enable you to view scrambled (pay to view) services. These services are provided by TopUp TV (UK only) and others. The Common Access Module and viewing card can be obtained from the service provider.

⚠️ Do not repeatedly insert or remove the Common Access Module as this may damage the interface and cause a malfunction.

This feature is not available in all countries.

To insert the Common Access Module
1. Before you insert the Common Access Module, ensure that the TV is switched off and the viewing card is inserted in accordance with the Service Provider's instructions.
2. Insert the Common Access Module into the slot. Flip the Common Access Module to another side and try again if you feel resistance.
3. Switch the TV on.

To remove the Common Access Module
1. Before you remove the Common Access Module, ensure that the TV is switched off.
2. Pull the Common Access Module from the slot.
3. Switch the TV on.

To view the module information

1. Press the ↑↓ buttons to CI Info then press the OK button to confirm.

2. A CI Information Main menu will pop up. Press the ↑↓ buttons to display the module information, smart card information, language, software download. Press the OK button to confirm.

3. After finishing the manual tuning adjustment of a channel, press the Menu button to save your channel before tuning the next channel.

4. Press the Exit button to exit the menu.

⚠️ This screen is for illustration only.
Feature Setting

PVR/Time shift (DTV Mode)
Allows you to select your preferences in the PVR/Timeshift

1. Press the ▲▼ buttons to select PVR/Timeshift then press the OK button to confirm.

Partition Select
Press the OK buttons to select the Partition Select menu. Display partition’s information / Format partition function / Set default partition function.

Partitions

Record List
The Record list shows all previous recordings on the inserted USB storage device.

Recorder Start
Start an instant record by selecting OK.
Setup Setting

Allows you to set up a variety of setup options.

1. Press the Menu button and then press the ▲▼ buttons to select the Setup menu.

2. Press the OK or ▶ buttons and then press the ▲▼ buttons to select the following setup options and then press the OK button.

OSD Time Press the ▲▼ buttons to select the display time of the on-screen menu: 5s / 10s / 15s / 20s / 25s / 30s / Never and then press the OK button to confirm.

PC Setup (PC mode only) Press the OK button to enter the submenu to adjust the Horizontal/Vertical position or Size and Phase of the picture.

Home Mode Press the ▲▼ buttons to select the Home Mode: Max Brightness / Home / Max Economy and then press the OK button.

Reset TV Setting Restores all settings to the factory defaults.

1. Press the Menu button then press the △▼ buttons to select the Setup menu.

2. Press the OK or ▶ buttons and then press the ▲▼ buttons to select Reset TV Setting and then press the OK button.

3. When activated the factory default settings will be applied to all user settings. (No Channels will be lost)

Factory Reset press the ▲▼ button to Factory Reset then press the OK button to confirm.

- the default password is "0000"
- If you change the password, be sure to remember the new password! If you forget the new password, press the master password "8899"

3. Press the Menu button to return to the previous menu. Press the Exit button to exit the menu.
EPG (Electronic Programme Guide) (DTV Mode)

This system has an Electronic Programme Guide (EPG) to help you navigate through all the possible viewing options.

The EPG supplies information such as programme listings, start and end times for all available services. In addition, detailed information about the programme is often available in the EPG (the availability and amount of programme information will vary, depending on the particular broadcaster).

This function can be used only when the EPG information is broadcast by broadcasting companies.

The EPG displays the programme details for the next 7 days.

**Switch On / Off EPG**

1. Press the EPG button to switch on EPG.
2. Press the EPG button or the Exit button again to switch off EPG and return to normal TV viewing.

There are 3 modes of EPG menu:

**Daily mode:** shows the information of the programs to be broadcasted in daily mode.

- **RED (Weekly)**: Change to weekly mode.
- **GREEN (Reminder)**: Update the program information of the current 7 channels in the channel list to the previous day and the start time keeps the same.
- **YELLOW (Prev Day)**: Update the program information of the current 7 channels in the channel list to the next day and the start time keeps the same.

**Weekly mode:** shows the information of the programs to be broadcasted in weekly mode.

- **RED (Daily)**: Change to Daily mode.
- **YELLOW (Prev Day)**: If the cursor lies on the right event list, update the right event list to display the event information of the previous day and move the cursor to the same place in the updated page.
- **BLUE (Next Day)**: If the cursor lies on the right event list, update the right event list to display the event information of the next day and move the cursor to the same place in the updated page.

**Extended mode:** shows the detailed information of each program.

Extended detailed programme information can be displayed by pressing the Info button on the remote control.
Teletext (ATV Mode)

Teletext is a free service broadcast by some TV stations which gives up-to-the-minute information on news, weather, television programmes, share prices and many other topics. Using the Teletext control buttons you can view pages of information that are listed in the teletext index.

To Turn on Teletext Function

⚠️ Make sure the TV channel you are watching transmits teletext. “No Teletext” sign will show on the screen if teletext is not available.

In ATV mode, press the Text button to enter Teletext mode.

Press the Text button three times to exit and the TV will return to the channel you were watching.

To select a page of text

Find the number of the page in the index and enter it using the 0-9 buttons. The number of the page will appear on the top left corner of the screen.

The page counter will search for your page. When it finds it, the page will be displayed.

To move to the next page of text, press the ▲ button.

To move to the previous page, press the ▼ button.

Mix

To view a page of text while watching a TV programme, press the Text button twice. The text will be superimposed over the TV programme.

Fasttext

At the bottom of the teletext screen is a row of subject headings in red, green, yellow and blue.

The remote control has a row of colour buttons corresponding to the row of coloured subjects on the screen.

Pressing one of the colour buttons will take you directly to the page corresponding to the subject heading.

Digital Teletext (DTV Mode)

Digital teletext can access special digital teletext services and specific services which broadcast digital teletext. You will need to turn off Subtitle Function before using teletext.

Teletext within Digital Service

1. Press the TEXT button to display the teletext page. If no Teletext service is available, a "No Teletext" message will be displayed.

2. Press the 0-9 buttons to select a page number.

3. Follow the instructions on digital teletext and move onto the next step by pressing OK, ▲▲▲▼▼, RED, GREEN, YELLOW, BLUE or 0-9 buttons etc.

4. To change digital teletext service, select a different service by pressing the 0-9 buttons or the ▲▼ buttons.

Alternative

You may press the RED button or the Text button to display the teletext information when you see a ● red logo displayed on the screen (e.g. BBC).

5. Press the TEXT button to exit.
Connecting a USB Storage Device

1. Switch off the TV before connecting any USB storage device.

2. Connect your USB storage device to the USB port of your TV.

3. Plug the connected devices into the mains socket

4. Press the button on the TV or the button on the remote control to turn on your TV.

5. Press the SOURCE button on the TV or the SOURCE button on the remote control to display the Source List. Use the buttons to select Media and then press the OK button to confirm.

⚠️ If a hard disk is used, make sure its mains adapter is connected to the mains supply.

- If a USB hub is used, make sure its mains adapter is connected to the mains supply as the total current consumption may exceed 500mA.

- The maximum supported storage space of the hard disk is 1 TB.

- The file system only supports HiSpeed FS, FAT16, FAT32, NTFS formats (NTFS Compressed files are not supported).

- If you want to store the video streaming of a DTV programme, the transfer rate of the USB storage device must not be less than 5MB/s, otherwise the picture and sound of the programme will be affected and a warning statement will be shown on the screen. If this happens, please upgrade your USB storage device.

- The TV screen will be blank temporarily as it will take time to start up and stabilise the connected hard disk. This is normal and the starting time may vary depending on the brand and the memory size of the connected hard disk.

- Disconnect the USB storage device if it is not in use.

- USB output: DC 5V 500mA
1. Press the **SOURCE** button on the TV or the **SOURCE** button on the remote control then press the ▲▼ buttons to select the **Media** mode and then press the **OK** button to display the root menu.

2. Press the ◀▶ buttons to select **PHOTO** and then press the **OK** button.

3. Press the ◀▶ buttons to select your storage device and then press the **OK** button.

   ![File format supported: JPEG / JPEG / BMP / PNG / GIF / TIFF.]

4. Press the ▲▼ buttons to navigate in the picture folder and then press the **OK** button. Select the picture file and then press the ◀▶ button to view. If you need to delete the file, press the **RED** button and then press the ◀ button to confirm.

   ![Photo folder content]

5. Press the **OK** button to display the function bar. Press the ◀▶ buttons and then press the **OK** button to select the function: Play / Pause / Stop / Prev. / Next / Rotate / Zoom / Info / Photo Setup / Play list.

   ![Function bar]

   *If this folder also contains music files. You can select a music track to play at the same time while viewing your photo.*

6. Press the **Exit** button to return back to the previous menu and to select another file to play. Press the **Exit** button repeatedly to return to the root menu.

---

### Listening to Music

1. Press the **SOURCE** button on the TV or the **SOURCE** button on the remote control then press the ▲▼ buttons to select the **Media** mode and then press the **OK** button to display the functions bar.

2. Press the ◀▶ buttons to select **MUSIC** and then press the **OK** button.
3. Press the ◄► buttons to select your storage device and then press the OK button.

4. Press the ▲▼ buttons to navigate in the music folder and then press the OK button. Select the music you want to play and then press the ► button to play it. If you need to delete the file, press the RED button and then press the ◄ button to confirm.

   - Some audio file formats will not be supported.
   - Supported file formats: WAVE / WMA / AAC / AC3 / MPEG.

5. Select the music you want to play, it will show the music information (Title / Artist / Album / Genre / Year).

6. Press the ◄► buttons and then press the OK button to select the function: Play / Pause / Stop / FB / FF / Prev. / Next / Goto Time / Repeat All / Play list / Music.

7. Press the Exit button to return back to the previous menu and to select another file to play. Press the Exit button repeatedly to return to the root menu.

### Watching Movies

1. Press the SOURCE button on the TV or the Source button on the remote control then press the ▲▼ buttons to select the Media mode and then press the OK button to display the root menu.

2. Press the ◄► buttons to select MOVIE and then press the OK button.

3. Press the ▲▼ buttons to select your storage device and then press the OK button.

4. Press the ▲▼ buttons to navigate in the movie folder. Select the movie file and then press the ► button to view. If you need to delete the file, press the RED button and then press the ◄ button to confirm.

   - Some audio file formats will not be supported.
5. Press the Info button or the OK button to display the function bar. Press the ▼ buttons and then press the OK button to select the function: Play / Pause / Stop / FB / FF / Slow mode / Step mode / Repeat A-B / Prev. / Next / Play list / Info / Movie Setup / Go to Time.

6. Press the Exit button to return back to the previous menu and to select another file to play. Press the Exit button repeatedly to return to the root menu.

Viewing Texts

1. Press the SOURCE button on the TV or the Source button on the remote control then press the ▲▼ buttons to select the Media mode and then press the OK button to display the root menu.

2. Press the ▲▼ buttons to select e-Book and then press the OK button.

3. Press the ▲▼ buttons to select your storage device and then press the OK button.

4. Press the ▲▼ buttons to navigate in the text folder. Select the text file and then press the ▼ button to view. If you need to delete the file, press the RED button and then press the ▼ button to confirm.

5. Press the Info button or the OK button to display the function bar. Press the ▲▼ buttons and then press the OK button to select the

6. Press the Exit button to return back to the previous menu and to select another file to play. Press the Exit button repeatedly to return to the root menu.

If this folder also contains music files. You can select a music track to play at the same time while viewing your text.
Time Shift Function (DTV Mode)

This function allows the TV to virtually record the live viewing broadcast programme.

- Time Shift Mode and Recording functions may not work if the signal strength is weak.
- Stop the time-shift function before switching to another input source.

If the transfer rate of the USB storage device is too slow for recording or time shift function, a warning statement will be shown on the screen. If this happens, please upgrade your USB storage device.

During normal TV viewing, you may press the ▶ button to virtually pause the live viewing broadcast programme if you want to go out for a while (e.g. going to the bathroom / kitchen). "II" will show on the screen.

There may be a few seconds delay in video and sound when the unit starts to playback the missed broadcast programme. It will return to normal.

Time shift input info menu:
Information: Time shift input info menu displays as a flag of Time shift. After Time shift start this menu displays all the time until. Time shift stop (except there is some other menu exist).
Enter method: After Time shift start, it will display automatically.

Time shift info banner menu:
Information: Time shift info banner shows some current Time shift information.
Enter method: After Time shift start, press Info to show the menu.

Function explain:
- a Time is equal to current play time minus current recording time.
- b Progress bar is for current recording length compared with the disk free space when REC start. The black triangular icon is for current play length compared with current recording length.
- c MB Free is the disk instantaneous free space.
- d The right red time menu has the same function with the time in info banner menu (only when info banner menu closed it showed).

Recording DTV Programme onto a USB Storage Device

Use this function to record the DTV programme you are watching on the main screen and save them for future viewing.
Make sure that your connected USB storage device has enough available memory space.

1. Press the Rec button to record the programme that you are currently watching.

The recording progress bar will disappear after 15 seconds. To display the recording progress bar again, press the OK button or the Rec button.

2. Press the Stop button to stop recording.

Recording will stop automatically when the disk is full.
Timer Programming

This function is used to perform scheduled recording.

1. Press the **Timer** button on the remote control. The **Timer** menu will appear.

2. Press the **YELLOW** button enter the Time Edit menu for the channel.

   **Recorder**
   - Press the ▲▼ buttons to select the Recorder On or Off.

   **Type**
   - Press the ▲▼ buttons to select the Type

   **Channel**
   - Press the ▲▼ buttons to select the

   **Start time**
   - Press the ▲▼ buttons to select the Minutes / Hour / Month / Date and then press the ▶ buttons to adjust the start time.

   **Duration**
   - Press the ▲▼ buttons to select the Minutes / Hour / Month / Date and then press the ▶ buttons to adjust the end time.

   **Date**
   - Press the ▲▼ buttons to select the date of starting recording, Format is day / month / year

   **Mode**
   - Press the ▶ buttons to select the Once / Daily / Weekly / Monthly.

3. After finishing all the recorder adjustments, press the **OK** button to confirm your settings. A Timer Save Success screen will display.

4. The **Schedule List** will then be displayed with your preset reminders shown.

5. Press the **YELLOW** button to return to the EPG.

6. Press the **Exit** button to exit EPG.

   - When the preset time is reached, the TV will start recording automatically.
   - If a programme recording starts when the TV is in standby mode, the LED indicator will alternately flash red and green.
Play Recorded Programme

You can play a recorded programme from the recorded programme list or from a USB Storage Device.

1. Press the SOURCE button on the TV or the SOURCE button on the remote control then press the ▲▼ buttons to select the Media mode and then press the OK button.

2. Press the ◀▶ buttons to select MOVIE and then press the OK button.

3. Press the ◀▶ buttons to select your storage device and then press the OK button.

4. Press the ▲▼ buttons to select the "PVR" folder and then press the OK button. Press the ▲▼ buttons to navigate in the "PVR" folder. Select your recorded programme and then press the OK button to view.
Maintenance

Careful and regular cleaning can prolong the life of your TV.

⚠️ Be sure to Disconnect the mains cable from the mains socket before any cleaning.

1. Use a soft dry cloth to wipe away the dust from the screen and surfaces.
2. If the surfaces are extremely dirty, clean the TV with a cloth which has been dipped in a weak soapy water. Wring the cloth until it is almost dry, then use it to wipe the TV.
3. Ensure there is no excess water on the screen. Allow any water or dampness to evaporate before switching the TV on.

⚠️ Never use alcohol, benzine, paint-thinner, cleaning fluid or other chemicals. Do not use compressed air to remove dust.

Features and specifications are subject to change without prior notice.
Safety Warnings

- Read all the instructions carefully before using the unit and keep them for future reference.
- Retain the manual. If you pass the unit onto a third party make sure to include this manual.
- Check that the voltage marked on the rating label matches your mains voltage.

Damage
- Please inspect the unit for damage after unpacking.
- Do not continue to operate the unit if you are in any doubt about it working normally, or if it is damaged in any way - switch off, withdraw the mains plug and consult your dealer.

Location of Unit
- The unit must be placed on a flat stable surface and should not be subjected to vibrations.
- Do not place the unit on sloped or unstable surfaces as the unit may fall off or tip over.
- The mains socket must be located near the unit and should be easily accessible.
- This unit is designed for indoor use only.

Temperature
- Avoid extreme degrees of temperature, either hot or cold. Place the unit well away from heat sources such as radiators or gas/electric fires.
- Avoid exposure to direct sunlight and other sources of heat.

Naked Flames
- Never place any type of candle or naked flame on the top of or near the unit.

Moisture
- To reduce the risk of fire, electric shock or product damage, do not expose this unit to rain, moisture, dripping or splashing. No objects filled with liquids, such as vases, should be placed on the unit.
- If you spill any liquid into the unit, it can cause serious damage. Switch it off at the mains immediately. Withdraw the mains plug and consult your dealer.

Ventilation
- To prevent the risk of electric shock or fire hazard due to overheating, ensure that curtains and other materials do not obstruct the ventilation vents.
- Do not install or place this unit in a bookcase, built-in cabinet or in another confined space. Ensure the unit is well ventilated.
- Make sure that there is a gap of at least 10 cm on both sides and a gap of 20 cm at the top.

Safety
- Always disconnect the unit from the mains supply before connecting / disconnecting other devices or moving the unit.
- Unplug the unit from the mains socket during a lightning storm.

Mains Cable
- Make sure the unit or unit stand is not resting on top of the mains cable, as the weight of the unit may damage the mains cable and create a safety hazard.
- If the mains cable is damaged it must be replaced by the manufacturer, its service agent, or similarly qualified persons in order to avoid a hazard.

Interference
- Do not place the unit on or near appliances which may cause electromagnetic interference. If you do, it may adversely affect the operating performance of the unit, and cause a distorted picture or sound.

Optimum viewing
- View the unit in moderate light to prevent eye strain. It is recommended to watch the unit from a distance 3-7 times that of the screen height.

LED screen
- The LED screen is manufactured using high-precision technology. However, some tiny black points and/or bright points (red, blue or green in colour) may constantly appear on the LED screen. These points are generated in the manufacturing process and are normal.

Screen Burn
- A characteristic of Plasma and LED TV Panels is that displaying the same image for a long time may cause a permanent after-image to remain on the screen. This is called screen burn. Most pictures shown on the unit will be constantly moving and fill the screen.
- Examples of images that you need to watch out for are as follows (this is not an all-inclusive list):
  1. Black Bars: If black bars appear at the left / right or top/bottom of the screen, it is recommended to change the format so that the picture fills the entire screen.
  2. TV Channel Logos: e.g. Shopping channel logos and pricing displays - especially if they are bright and stationary. Moving or low-contrast graphics are less likely to cause ageing of the screen.
  3. Time Displays
  4. Teletext: Do not view a stationary page for long periods of time.
  5. TV Menus
  6. Pause Mode: Do not leave the screen in pause mode for long periods of time, e.g. when watching videos.
- To prevent screen burn if viewing any of the above for long periods of time, reduce contrast and brightness when viewing. Once burn-in occurs it will never disappear completely.
Headphones
- Listening to loud sounds for prolonged periods of time may permanently damage your hearing.
- Before putting on headphones, turn the volume down then put the headphones on and slowly increase the volume until you reach a comfortable listening level.

Standby
- The button on the remote control does not switch off the unit completely. The unit will continue to draw electricity from the mains supply while in standby. In the interests of safety and to avoid unnecessary energy consumption, never leave the unit in standby while unattended for long periods of time, e.g. overnight, while on holiday or while out of the house. Switch it off and disconnect the mains plug from the mains socket.

Batteries
- Batteries used in the remote control for this unit are easily swallowed by young children and this is dangerous.
- Keep loose batteries away from young children and make sure that the battery holder tray is secure in the remote control. Seek medical advice if you believe a cell has been swallowed.
- Please dispose of batteries correctly by following the guidance in this manual.

Supervision
- Children should be supervised to ensure that they do not play with the unit and the remote control.
- Never let anyone especially children push anything into the holes, slots or any other openings in the case - this could result in a fatal electric shock.

Service
- To reduce the risk of electric shock, do not remove screws. The unit does not contain any user-serviceable parts. Please leave all maintenance work to qualified personnel.
- Do not open any fixed covers as this may expose dangerous voltages.

Maintenance
- Ensure to unplug the unit from the mains socket before cleaning.
- Do not use any type of abrasive pad or abrasive cleaning solutions as these may damage the unit’s surface.
- Do not use liquids to clean the unit.
- For MAINS powered apparatus and for apparatus producing internal voltages greater than 35 V(peak) a.c. or d.c., having no protection against splashing water, the apparatus shall not be exposed to dripping or splashing and no objects filled with liquids, such as vases, shall be placed on the apparatus.
- To ensure correct and safe installation and interconnection of the apparatus in multimedia systems
- Where the MAINS plug or an appliance coupler is used as the disconnect device, the disconnect device shall remain readily operable;

Important Note
This TV is fitted with the latest ECO friendly power saving technology. If whilst viewing the TV remote control is not used for a period of 4 hours, the Auto Standby feature will operate and power down the TV. A warning message will be displayed to inform you that the TV is about to power down.

Packaging materials are not toys. Please keep away from children. Plastic bags can cause suffocation when pulled over the head.
Waste Electrical Recycling

Correct disposal of Product

This sign indicates that this product may not be disposed of with your regular household waste. The recycling and separate collection of such products is your responsibility. Please drop off the above mentioned waste at a designated place for recycling waste electrical and electronic equipment. If you do not know where to drop off your waste equipment for recycling, please contact your local city office or household waste collection service.

The crossed out wheeled dust bin symbol indicates that batteries and /or accumulators must be collected and disposed of separately from household waste.

If the battery or accumulator contains more than the specified values of lead (Pb), mercury (Hg), and/or cadmium (Cd) defined in the Battery Directive (2006/66/EC), then the chemicals symbols for lead(Pb), mercury (Hg) and/or cadmium (Cd) will appear below the crossed out wheeled dust bin symbol.

By participating in separate collection of batteries, you will help to assure the proper disposal of products and batteries thus help to prevent potential negative consequences for the environment and human health.

For more detailed information about the collection and recycling programmes available in your country, please contact your local city office or the shop where you purchased this product.

This appliance complies with European Safety and Electrical directives.

It fullfills the following EU regulations

EN 61000-3-3:2008
EN 55020:2007
