1. Safety Precautions

1.1 Storage

- This product shall be kept far away from too high or too low temperatures. This product shall be stored at -20°C-60°C and its working temperature shall be -5°C -40°C.
- Do not use this product in wet environment, such as in a bathtub, wash basin, kitchen, sink or basement, swimming pool, etc.
- Do not place TV in an environment with high humidity, dust or full of mist.
- Do not drop or throw this product.
- Avoid strong vibration of the machine to avoid the strong collision with other objects.
- Do not squeeze or scratch the product with sharp objects.
- The rear recess of the product and the opening in the shell are used for ventilation, at the same time, they are used to ensure the reliability of components and components and avoid overheating. Do not place the TV and power adapter in bed, on sofa, carpet or other similar surface to avoid blocking the radiator opening. Do not place the television and the power adapter near or on heater or heat sources unless it is equipped with a complete ventilation device; The television and power adapter are prohibited from being placed in an insert-type installation device.
- When in use, make sure the TV is at least 3 inches (76 mm) away from walls or other objects.
- Please use the specified type of power on the TV label. If you have questions about the type of power source that shall be used, please consult your dealer or local power supply department.
- Make sure that the power plug and wire you are using can withstand the sum of the rated current of all the powered products.
- Do not place the TV in a place where users can easily touch it.
- All the notes and instructions in the guide shall be observed.
- Do not overload the power plug or extend the power cord, otherwise it may cause fire or electric shock.
- Do not fix the TV without authorization, because the cabinet is subject to high voltage or other hazards. Qualified service personnel shall be required to repair the TV.
- Please unplug the power adapter from the socket and ask qualified service personnel for repair if:

1.2 Maintenance

- Before cleaning, first, disconnect all the cables of this device.
- Wipe the case, screen and keys with a soft cloth soaked with a small amount of mild detergent.
- When cleaning the TV, do not use polishing cloths, disinfectants or any kind of fuel or chemical cleaners such as alcohol and gasoline, etc.

Attention!

To ensure your own safety and the safety of the people around you, do not watch TV or turn on the TV receiver. It’s dangerous to watch a TV program or use a TV receiver when driving a car.
Special Instruction

Bright spots and dark spots may appear on the screen. This is normal and related to active matrix screens and is not a symptom of failure. Do not try to conduct technology maintenance yourself. If anything goes wrong, turn the TV receiver off and contact us or your dealer. The device contains a large number of small electronic components. Disassembly or modification may cause damage or breakdown to the device.
